Thermal Transfer Bundles

Intermec is proud to announce the expansion of the Bundle program to simplify the ordering process for thermal transfer products. Our program now includes bundles for our Desktop printers along with our Mid-range and Ultra Durable film labels and tags.

A bundle includes both the labels/tags and the corresponding ribbon for a wide selection of Intermec printers. Using bundles provides the following benefits:

- Customers only have to order and inventory one part number for both the ribbon and labels.
- The quantity of ribbon and labels are matched, resulting in fewer changeovers and waste for the end user.
- Discount pricing – that's right, when ordering a bundle, an automatic discount will be applied to the purchase order that results in a final price that is lower than if you ordered the labels and ribbons separately.
